Results-driven and skilled web developer with over 2 years experience in React.js, Node.js, Tailwind CSS, and PHP. Passionate about building responsive user interfaces and implementing new features, I have a proven track record of delivering projects that meet coding standards and requirements. Through collaboration with cross-functional teams, I gained proficiency in React.js, Node.js, Tailwind CSS, and PHP, ensuring optimal performance and code quality. Actively engaged in learning sessions and team discussions to stay updated with industry trends, I am eager to contribute my expertise to deliver exceptional web experiences.

## Work Experience

---

### Junior front end developer

Learnhall - Vancouver, WA

March 2023 to July 2023

- Collaborated on building responsive user interfaces using React.js, Node.js, and Tailwind CSS.
- Implemented new features and functionalities, adhering to project requirements and coding standards.
- Conducted testing and debugging for optimal performance and user experience.
- Participated in code reviews, providing feedback to improve code quality and maintainability.
- Gained proficiency in React, Node, and explored additional related libraries and tools.
- Contributed to project documentation, including specifications and development processes.
- Actively engaged in learning sessions and team discussions to stay updated with industry trends.

### Web developer intern

Tokensoft Technologies - Ilorin

September 2022 to May 2023

- Collaborated with a team of developers to create and maintain responsive web applications using HTML, CSS, PHP, and Bootstrap.
- Implemented user-friendly designs and ensured cross-browser compatibility, optimizing the user experience across different platforms.
- Developed dynamic and interactive functionalities using PHP to enhance website interactivity and data processing.
- Utilized Bootstrap framework to create modern and visually appealing layouts, improving the overall aesthetics and responsiveness of the websites.
- Conducted thorough testing and debugging to identify and resolve issues, ensuring smooth functionality and optimal performance.

### Web3 intern

JobCrypt - London

January 2023 to March 2023

- Assisted in the development of decentralized applications (DApps) using Web3 technologies such as Ethereum and Solidity.

- Collaborated with the development team to implement smart contracts and blockchain integration into web applications.
- Conducted testing and debugging of DApps to ensure functionality and security.
